

dINOSAUR ON TOUR!

have you ever visited London. then you might have seen one of the biggest and most popular members of the Natural History Museum dippy, the enormous diplodocus skeleton, has been at the museum since 1905. now some other museums are going to have a turn to look after him.

the real diplodocus skeleton was found in America in 1898 and put on display there. King Edward VII saw a drawing of it and he asked to have a model of the skeleton built for the Natural History Museum.
