How can we help you?

We are a UK service supporting adults (aged 18+) who are experiencing intimate image abuse, also known as, revenge porn.

The Helpline was established in 2015 alongside the legislation which made it an offence to share intimate images or videos of someone, either on or offline, without their consent with the intention of causing distress. The Helpline is run by a small team of passionate and motivated individuals who are here and ready to help.

YouTube Kids Safer Experience Parent Resources Family-Friendly Videos Fun on Every Screen WATCH NOW

A safer online experience for children.

YouTube Kids was designed to be a safer and simpler place for children to explore their interests through online video.

We work hard to keep videos on YouTube Kids family-friendly and use a mix of automated filters built by our engineering teams, human review and feedback from parents to protect our community. We are constantly working to improve our safeguards and offer more features to help parents create the right experience for their families. But not all videos have been manually reviewed. If you find something inappropriate that we missed, you can flag it for fast review. This makes the app better for everyone.

Frequently Asked Questions

How do videos get into YouTube Kids?

Take your email security to another level

Your email is where you keep your most personal and financial information.

If a cyber criminal accesses your email, they could:

- access your other online accounts using the 'forgot password' feature (which often sends you an email)
- access personal or business information and use this to scam you or people you know
