

Maths – Thursday 28th January

Retrieval practice:

What does symmetrical mean?

Which direction of symmetry are we focusing on?

Retrieval practice:

What does symmetrical mean?

An image/object that is the same on both sides. Each side is a mirror image of the other.

Which direction of symmetry are we focusing on?

Vertical lines of symmetry.

WALT: Sort 2D shapes

Sort the 2-D shapes into the correct group:

Rectangle Triangle Pentagon

WALT: Sort 2D shapes

Sort the 2-D shapes into the correct group:

Rectangle

Triangle

Pentagon

How have the shapes been sorted?

How have the shapes been sorted?

3 sides

4 sides

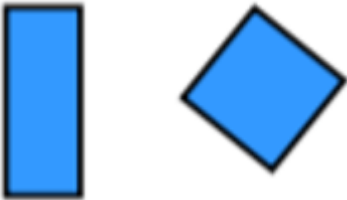

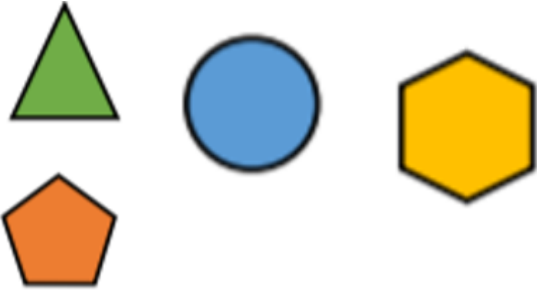

Whitney sorted her shapes by the number of sides.
What shapes could belong to each group?

4 sides	Not 4 sides

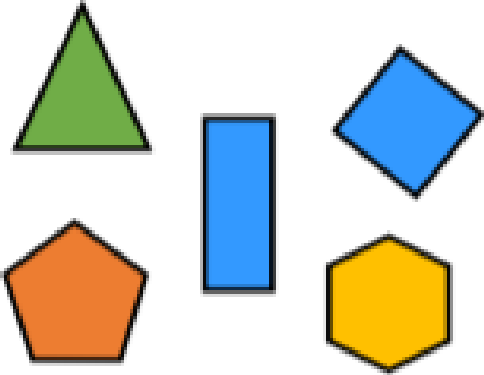

Whitney sorted her shapes by the number of sides.
What shapes could belong to each group?

4 sides	Not 4 sides
	

One to discuss

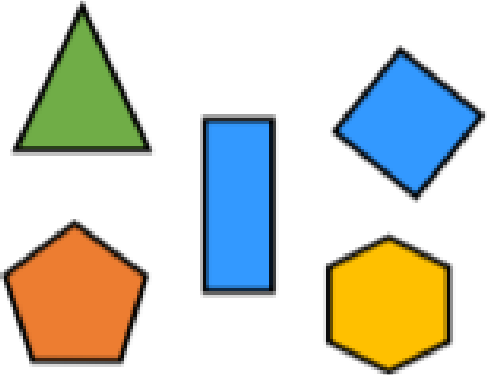

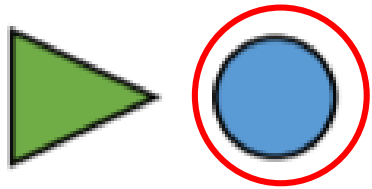

Which shape is in the wrong set?
Explain why.

Vertical line of symmetry	No vertical line of symmetry
	

One to discuss

Which shape is in the wrong set?
Explain why.

Vertical line of symmetry	No vertical line of symmetry
	

- The circle does have a vertical line of symmetry so should be in the other set

Your task today

Sort 2D shapes

1 Draw lines to sort the shapes into groups.

triangles pentagons

2 How have the shapes been sorted?

© White Rose Maths 2019

3 Eva sorts some shapes.

a) Is Eva correct? _____
How do you know?

b) Draw a group of three different pentagons.

© White Rose Maths 2019

4 a) Sort the shapes in order of the number of sides.
Start with the shape that has the fewest sides.

fewest most

b) Sort the shapes in order of the number of vertices.
Start with the shape that has the fewest vertices.

fewest most

c) What do you notice about your answers to part a) and part b)?

© White Rose Maths 2019

5 Draw three different shapes in each group.

shapes with 4 sides

shapes with an odd number of vertices

shapes with an even number of sides
