# What is a tally?

- A tally is way of recording information quickly and clearly.
- It is very useful for keeping track of the number of times something is happening.

# Where we use it in school?

For example:

- Keeping track of house points
- Keeping track of the laps around our track
- Keeping track of ideas in a class vote

# How do we draw and read a tally?

It saves constantly having to change the number:

1 2 3 4

IIII

When we get to 5, we draw a line through:

IIII

When we draw a number past 5, we start a new set:

IIII IIII II

# Remember to count in 5s!

Match the tallies to their totals.
