

Year 2 Project Ideas - Where in the world are we?

Explore some Ordnance Survey maps. Can you find out what the different symbols mean?

Can you use compass points to direct someone at home?

Can you make a map of your house?

Can you create a poster about the key landmarks in England?

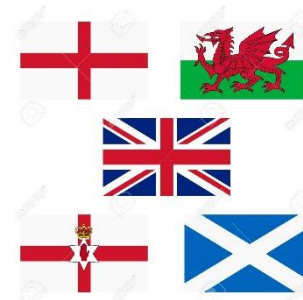

Can you learn the names of all seven continents off by heart? Can you make up a song to help you remember?

Choose a country from a different continent and think about how it is similar and/or different to where we live.

Can you make a flag of one of the countries of the United Kingdom?

Can you create a collage/painting/drawing of somewhere in our local area?
